FRANCESCA MARIA D'ANTONIO

Wedding planner & set designer

*was created to bring novelty, joy, color, lightheartedness, and all the magic of theater that distinguishes my work.*

*I am often chosen for my illustrations, designs that tell the stories of couples, and scenographic tableaux.*

*My name is **Francesca Maria D'Antonio** and I am an all-round artistic soul who organizes events with unique identities. After more than 15 years as a theater set, costume designer, and illustrator in 2023 I decided to devote myself exclusively to private events. Every event I design is unique and cannot be repeated. Everything takes on a strong visual identity that aims to tell stories, emotions, psychological characteristics of people, and events where even the smallest object "on stage" plays an important role. I don't like to be predictable, and I devote a lot of time to research, hiding many messages and symbols in every material element.*

*The guest is at the center, and every event becomes a true sensory experience.*
